

English + Kitesurfing (+ 18)

Choose your perfect English course and combine it with a 3-day long kitesurfing course at a beautiful Cypriot beach! This is the unique programme for anyone who wishes to mix English lessons with a great watersport adventure. Feel the fantastic waves, feel the wind and enjoy your holiday with us!

English + Windsurfing

This is a unique opportunity for water sport lovers who would like to combine an English course with sport. Our location is perfect for all water sports and the warm, crystal-clear water and 350 days of sunshine make Cyprus the perfect windsurfing destination.

Whether you want to take your first steps at windsurfing or you wish to develop your skills, we can design a course for you! Individual tuition or group lessons are available, for both adults and children. The basic course consists of 6 lessons of theoretical and practical tuition. It is possible to increase the number of lessons for greater progress.

Water Sports

English + Diving:

This is a unique opportunity to go diving in the beautiful, Mediterranean Sea and to learn or improve your English as all the instructors speak English too!

Scuba diving gives you the chance to experience the wonders of life beneath the waves. It takes you to a different world with new colours, shapes and textures. It is a wonderful experience and allows you to explore the underwater world of historic shipwrecks and amazing reefs.

The minimum age is 10 years old and with learners of this age the group is small – no more than 4 people.

- Beginner Scuba Diving

We use the hotel swimming pool so that learners can discover fantastic scuba diving in the pool. We briefly discuss safety procedures and equipment then we take the students under the water, swimming for about 15 minutes under our instructor's guidance.

- Open Water Discover Scuba Diving Programme.

First of all, we briefly explain the safety procedures, equipment and a few basic skills. Next, the instructor takes the students into the water (pool or sea) and demonstrates the first skills and gets everyone to practice. When they feel confident we swim in the sea – normally this is done around the break waters just off the beach, in 5 metres of water. Once learners have completed this stage they can then do additional dives, up to a maximum depth of 12 metres. Participants receive a certificate.

- PADI Scuba Diver Course

This course provides a life-time dive qualification which is recognised anywhere in the world and allows the diver to dive to 12 metres with a PADI professional. This will take 4-5 sessions involving 3 confined water dives, 2 open water dives and 3 theory chapters. Upon completion of the course we send information to PADI and they send a diving licence to the student.
