

The Preluna Hotel & Spa, Sliema

Other Accommodation Options

For guests who prefer alternative accommodation to the Gateway School Residence, we have carefully selected a broad range of homestay solutions, self catering apartments, hotels (3, 4 and 5 star options) and high quality family villas and luxury apartments.

Homestay Accommodation

Some students prefer the 'homestay solution' because it enables them to interact more actively with the local culture and ensure total English language immersion. The homestay solution means that you will live in with meticulously selected host families in homes within 5 minutes walking distance from the school. Remember, the School is situated in a high quality neighbourhood!

All families (without exception) hosting our students have been personally known to us for years. The best proof of our students' satisfaction with these families is the fact that they recommend them to their friends when these come to study here. All our host families are native English speakers. We know them so well that we can match students' individual preferences with the most suitable family for them.

Carlota Chicharro Parages

"My stay in Malta was wonderful. I learnt much more than I expected as we spoke English the whole day. I have met there a lot of people from different countries and now I can chat with them in English! Moreover, Malta is a beautiful island. It is a perfect place to learn English and also do some sightseeing. I would love to come back!

Regarding the family, they were extremely nice, understanding and kind to me. I strongly recommend this family to stay with. The school was excellent. There were only 8 students per class and teachers were always focused on our improvement. Also, very interesting trips were organised and I think that it is a good idea to get to know the island really well."

Hugo Pérez de la Fuente

"My teachers were really good, classes were very dynamic and there was individual attention at all times. I remember the classes with Lynn... they were great! It was simply impossible to get bored during the lesson. The people at Gateway were all very helpful and always ready to answer my questions with a smile. I stayed with a very nice host family. They helped me a lot. They were really friendly and during the time I spent with them, I felt as if I were at home. The food was really good and I could practise my speaking all the time. I'm already looking forward to visiting Malta and GSE again next year!"
